

Commitment – Tolotrack access control system

With this commitment, I agree to the following conditions when using the Tolotrack system:

- Independent access to the airside area from the Tolotrack managed access opening is only available to a person registered in the system. If I am accompanied by others, such as aircraft passengers, I am responsible for ensuring that the whole party stays in the airside area in my immediate vicinity.

N.B! Unauthorised access to the airport area without valid rights is punishable under the Aviation Act (864/2014).

- As an authority, I only use the Tolotrack managed route only in official duties.
- I make sure that the Tolotrack managed access opening closes behind me and I do not let any outsiders pass through.
- I will notify immediately the advice desk at my home airport if I suspect that my subscription connected to the access right has ended up in the wrong hands or if I need to change my phone number for some other reason.
- Access rights are valid for five (5) years at a time, after which they are applied again if necessary. If my situation changes so that I am no longer entitled to the granted right of access before the deadline expires, I must notify the advice desk at my home airport immediately (for example, I no longer own a pilot's license, or my lease for the hangar has expired).
- If I act contrary to the provisions of this commitment, Finavia Corporation has the right to cancel my access rights.
